EDWARD C. SULLIVAN
CHIEF OF POLICE

Police Department

Office of the Chief of Police

Newport, R. I.

January 17, 1944

Mr. Kermit Geary,
R. F. D. # 2
Walnutport, Pa.

Dear Sir:

It is with pleasure that the Newport Police Department acknowledges your flattering letter and report of December 7, 1943, on tne transmission of W. M. P. H's signals.

We are using a 90 foot Wincharger vertical antenna, located a stones throw from the Atlantic Ocean. The 50 Watt, remote control transmitter, in use since 1938 was designed and built by Mr. Perry O. Briggs, former Providence Police Radion Engineer, now in Government service.

The two way cars have a 7.5 W Mobile transmitter, also constructed by Mr. Briggs, on a frequency of 30,580 K. C.. All mobile antenna on these units. The cars have been reported as heard in Ohio.

Thanking you for your interest, I remain,

Yours very truly,

Edward C Sullivan

ECS/Q

Chief of Police

P.S. In regard to the calls listed in your letter, on checking with our daily radio logs it was found that all of your list was accurate and correctly timed.
